- Sitecore: Sitecore Certified Professional (XM Cloud/XP), SXA, Helix, Unicorn, TDS, SCS.
- Microsoft: Microsoft Certified Professional (MCP ID: 3417256).
- Specialized Training: Sitecore SBOS and Sitecore Personalization.

Professional Experience

Altudo (formerly Edynamic)

Sitecore Technical Architect | 2014 – Present | Supervisor: Ankit Sethi | Contact: +1 616-269-1950

- Drive solution architecture for global Sitecore and Microsoft-based digital experience projects, including environment strategy for Dev, QA, UAT, and Prod.
- Define application architecture, non-functional requirements, and performance strategies (scaling, capacity, archiving, tuning).
- Design deployment strategies from code repository to production, including blue-green deployments for high availability and disaster recovery.
- Lead performance and scalability assessments, security audits, and third-party integration reviews.
- Provide technical leadership across the SDLC, guiding UX, integration patterns, and best practices for Sitecore implementations.
- Conduct pre-sales solutioning, technical estimations, and leadership trainings; mentor teams and align responsibilities to skill sets.

Representative Clients and Work:

- FM (Factory Mutual) – Multiyear project, led the team and upgraded sitecore from 9.1 to

10.1 and then 10.4.

- Sheppard Mullin – XMCloud implementation
- Gowling WLG – Sitecore XM Cloud implementation from scratch
- NCH Nationwide Children – Sitecore personalization and Multilingual capabilities for microsites
- PWC – Intranet portal
- FIS – Intranet portal and microsite
- Logix – Sitecore 10 website implementation
- Nuveen – Sitecore personalization and AB Test strategy

Valtech – New York, USA

Sitecore Architect | Jan 2018– Jul 2020 | Supervisor: Simon Jones | Contact: +1 646-379-5295

- Led technical audit for L'Oréal's Makeup.com rebuild and supported white-hat security testing to harden the platform.
- Architected a custom search solution using Azure Search with Autosuggest for Flex, improving discovery and user experience.
- Delivered implementations on Sitecore 8.2–9.3, SXA 1.7–9.3, and Sitecore Forms, including automation with Sitecore PowerShell Extensions.
- Acted as Sitecore Architect across the SDLC, driving strategy, scoping, estimation, and team leadership for onsite development.
- Managed documentation for technical architecture and design; led architecture, design, and code reviews with vendor teams.

Key Clients:

- L'Oréal – Web site factory program and local brand adaptations.
- Flex – New Sitecore 9.1 website using Azure Search and Azure deployment.

Edynamic LLC – New York / India

Sitecore Architect | Apr 2014– Jan 2018 | Supervisor: Ankit Sethi | Contact: +1 616-269-1950

- Led onsite development teams, managing technical architecture, design, and documentation for enterprise Sitecore projects.
- Defined SOA-based application architectures, implemented CI and TDD environments, and drove Sitecore systems design and deployments.
- Provided reviews and best-practice guidance on existing Sitecore implementations; mentored developers and steered Sitecore technology adoption.

Representative Clients and Work:

- Kilpatrick Townsend – Architected website from scratch using Helix; POC for system design and technical direction.
- New Jersey Manufacturers (NJM) – Implemented Geo IP-based personalization on Sitecore.
- Baker Botts – Managed Azure-hosted Sitecore site and migration from classic Azure to Azure App PaaS.
- Weil, Gotshal & Manges – Delivered Azure publishing solution.
- Morgan Lewis – Full lifecycle delivery of award-winning legal website on Sitecore.
- K2 Intelligence – POC for deployment and continuous support of Sitecore solution.

Environment: Visual Studio 2015, .NET 3.5/4.0/4.5, C#, AJAX, Web Services, LINQ, Entity Framework, TFS 2013, LoadRunner, Sitecore 7, Rally, ALM, AWS, Azure IaaS/PaaS.

Sapient Consulting Pvt. Ltd – Gurgaon, India

Development Technical Architect / Track Lead | May 2009 – Apr 2014 | Supervisor: Amit Mahajan | Contact: +91 9810512239

- Acted as Development Technical Architect and Business Analyst, translating business and

system requirements into scalable solutions.

- Led planning, estimation, and delivery for multi-site digital platforms using Sitecore and Microsoft technologies.

Selected Projects:

- Chrysler Workforce Portal (SharePoint 2010) – Led development track for employee portal covering permanent, hourly, contractor, and retiree users.
- General Mills (Sitecore) – Delivered modular Sitecore-based digital marketing platform powering sites like bettycrocker.com, pillsbury.com, and yoplait.com.
- Vail Resorts (Sitecore, ASP.NET, AJAX) – Led team building CMS-configurable resort sites with shared planning and booking engine; implemented performance optimization and Omniture tagging.
