SQL	20.0+ YEAR(S)
DB2	07.0+ YEAR(S)

TECHNICAL EXPERIENCE:

SOFTWARE

FILEAid, FILE MASTER, EXPEDITER, INTERTEST, ABEND AId, CICS, EZTRIEVE, QUICKJOB, ESP JOB SCHEDULER, CA7 JOB SCHEDULER, CA VIEW, CA SORT, CA UTILITIES, DYL280II, FOCUS, SAS, VSAM, DL/I, COPICS, VBOMP,

EDI, VERSION MERGER, VIAISOFT, IVR, MQ SERIES, NDM, FTP, ENDEVOR, ICCF, TSO, PDS MAN MANAGEMENT, LIBRARIAN, ROSCOE, VOLLIE, CLARITY, CMS, UFAM, MS WORD, MS EXCEL, MS POWERPOINT & MS SHAREPOINT.

DATABASES

IBM DB2, ORACLE & IDMS.

LANGUAGES

COBOL (4/ 5/ 6), JCL, FOCUS, ASSEMBLER & RPG II.

PLATFORMS

IBM MVS, OS/ VS, z/ OS, DOS/ VSE & VM.

PROFESSIONAL ACCOMPLISHMENTS

EXPERIS

10/2024 – Present

Senior Lead COBOL Developer at Fiserv Corporation

- **Built a team of three COBOL developers and a QA Tester. Assign projects and day to day tasks.**
- **Is responsible for the design, coding, testing and implementation of the application changes throughout the entire project life cycle for MVS Development Team.**
- **Experience working on Mainframe Software Application Commercial Class Student Loan Application Processing installing changes for Monthly/Quarterly Release Projects.**
- **Working on 2 year backlog of projects that the client Mohela wanted developed/fixed and install on a Monthly/Quarterly Release.**
- **Based on the requirements, performed impact analysis on various modules and prepared the high-level and detailed design for the development activities.**
- **Involved in development activities like coding, unit testing, code review, QA and Client Acceptance Testing.**
- **Created ENDEVOR package and Change Request with detail I Plan, which will implement on the implementation date.**
- **Responsible for code and implementation walkthrough with responsible parties like Product team, Production Support, QA, and Project team.**
- **Work with other Fiserv applications resources to ensure flawless deliverables to the clients.**
- **Led daily Scrum Meetings**

Environment: BATCH COBOL, CICS, DB2, VSAM, JCL, INTERTEST, IBM TOOLS/ UTILITIES, JOB SCHEDULING (ESP), IDCAMS, SYNC SORT, FILEMASTER, FILE TRANSMISSION (FTP/NDM), ENDEVOR, JIRA & SERVICE DESK

RESOURCE 1

04 / 2022 – 07/2024

Senior Consultant at VISA Corporation

- **Is responsible for the design, coding, testing and implementation of the application changes throughout the entire project life cycle for MVS Development Team.**
- **Experience working on Mainframe Software Applications Debit Processing Settlement System, Pulse, NYCE, and Other Network applications for Monthly Release Projects.**
- **Work on Visa and MasterCard B E Projects for April and October Association Mandates.**

- Based on the requirements, performed impact analysis on various modules and prepared the high-level detailed design for the development activities.
- Involved in development activities like coding, unit testing, code review, QA and CERT.
- Created ENDEVOR package and Change Request with detail I Plan, which will implement on the implementation date.
- Responsible for code and implementation walkthrough with responsible parties like Product team, Production Support, QA, and Project team.
- Work with offshore resources to ensure flawless deliverables to the clients.

Environment: BATCH COBOL, VSAM, JCL, EZTRIEVE, EXPEDITER, IBM TOOLS/ UTILITIES, JOB SCHEDULING (ESP), IDCAMS, SYNC SORT, FILEAID, FILE TRANSMISSION (FTP/NDM), ENDEVOR, JIRA & SERVICE DESK

FISERV/ FIRST DATA/ BANK OF AMERICA MERCHANT SERVICES
04/2022

02/ 2008 –

Lead IBM Mainframe Developer

- Was responsible for the design, coding, testing and implementation of the application changes throughout the entire project life cycle.
- Experience working on Settlement, Pulse, NYCE, Star and Debit Network applications.
- Responsible for requirements gathering, requirement elicitation and documentation of the requirements for all the projects assigned. To achieve this, had multiple in detail discussions with the client on a very regular basis to understand the requirements clearly.
- Served as the subject matter expert/ lead developer on complex programs to support application software bi-annual mandated changes for Visa, MasterCard, American Express and Discover authorization billing credit card platforms, batch card not present applications.
- Based on the requirements, performed impact analysis on various modules and prepared the high-level detailed design for the development activities.
- Involved in development activities like coding, unit testing, code review and UAT.
- Created ENDEVOR package and change request in CA service desk with detail iPlan, which will implement on the implementation date.
- Responsible for code and implementation walkthrough with responsible parties like operation team, LOB and compliance team.
- Extensively worked on COBOL programming and CICS programs with COPYBOOKS, JCL, PROCs, SORTCARDS, SCHDDOCS and EZTRIEVE programming.
- Responsible for proprietary BE Settlement/ Authorization production support activities for IR, RR and PR tickets.
- Guided the activities of offshore resources to ensure flawless deliverables to the clients.

Environment: BATCH COBOL, VSAM, JCL, ORACLE, EZTRIEVE, SQL, INTERTEST, IBM TOOLS/ UTILITIES, JOB SCHEDULING (CA7), IDCAMS, SYNC SORT, FILE-MASTER, FILE TRANSMISSION (FTP/ NDM), ENDEVOR, CLARITY, JIRA & SERVICE DESK.

APPLICATION PROCESSES:

- **Settlement** - Receive offsite flat files from different merchants and internal and external vendors to process the files through daily edits/ reporting programs. The settlement transactions will be prepared to pass to the interchange application process and transaction data repository. Application software used included BATCH COBOL 4/ 5/ 6, VSAM, JCL, ORACLE, EZTRIEVE, INTERTEST, IBM tools/ utilities, Job Scheduling (CA7),

IDCAMS, SyncSort, File-Master, File Transmission (FTP/ NDM), Endeavor, Clarity & JIRA. Service Desk was used for CR – Change Request, IR, RR and PR tickets.

- ***Authorization Billing*** - Receive flat files from different internal and external vendors to process the files through daily edits/ reporting/ billing fee programs. The authorization transactions will be prepared to pass to TBRED (Thorough Bred) application process and transaction authorization data repository. Application software used BATCH COBOL 4/ 5/ 6, VSAM, JCL, ORACLE, EZTRIEVE, INTERTEST, IBM tools/ utilities, Job Scheduling (CA7), IDCAMS, SyncSort, File-Master, File Transmission (FTP/ NDM), Endeavor, Clarity & JIRA. Service Desk was used for CR – Change Request, IR, RR and PR tickets.
- ***Batch CNP*** - Receive flat files from different merchants in Batch CNP offsite format that kicks off CICS transactions through first batch job. This CICS process will send transactions to the authorization network to be approved or declined. The last CICS process creates a file on CICS and triggers our second batch job that will copy a file from the CICS file to batch sequential file. They are authorized online real-time. The third batch job kicks off to create an offsite flat file that is read into the settlement process. This job also sends confirmation files back to the merchant. Application software used BATCH COBOL 4/ 5/ 6, CICS, VSAM, JCL, ORACLE, EZTRIEVE, INTERTEST, IBM tools/ utilities, Job Scheduling (CA7), IDCAMS, SyncSort, File-Master, File Transmission (FTP/NDM), Endeavor, Clarity, JIRA. Service Desk was used for CR – Change Request, IR, RR and PR tickets.

JAMESON INN AND TAN WEST, INC.

08/ 2004 – 02/ 2008
