EXPERIENCE

Cognizant - Atlanta, GA - QE Lead/Manager

11/2017 - Present

- Defined processes and tools depending on project specifics and client goals, creating detailed project road maps, test plans, schedules and work breakdown structures ensuring alignment with organizational goals and objectives.
- Spearheaded the setup of efficient and cost-effective QE processes and tools, optimizing resource allocation, training initiatives, and reporting mechanisms for enhanced project outcomes.
- Led and mentored testing teams, resulting in consistently fault-free audits and adherence to product requirements, while driving a culture of excellence.
- Fostered close collaboration with cross-functional teams to guarantee thorough testing coverage, meeting project requirements and adhering to quality standards.
- Analyzed and addressed issues and defects discovered during testing, facilitating prompt and effective solutions to maintain project momentum and product quality.
- Led recruitment efforts by conducting comprehensive technical interviews to identify and onboard skilled QE professionals for the team.

3PillarGlobal - Cluj-Napoca, Romania - Senior QE Engineer

5/2016 - 11/2017

- Demonstrated expertise in developing, enhancing, and maintaining automated test scripts, significantly reducing errors and redundancies in the testing process. Proficient in identifying, recording, and troubleshooting automated test failures, ensuring swift issue resolution.
- Established industry-leading automated test scripting standards, test review checklists, and test execution procedures, optimizing review and execution efficiency.
- Demonstrated expertise by devising and presenting innovative automation testing strategies to clients at the Scout Exchange's Boston, MA location, leading to enhanced work processes and
