## **2008 -2010 Glamalco Limited - Sales & Marketing Assistant**

### **Duties:**

- All enquiries received from Contractors came directly to me & I logged them onto a database & spreadsheet.
- It was solely my responsibility to enter information onto both the database & spreadsheet. Both were used in our weekly sales meetings to track progress of jobs.
- Part of my role was to meet & greet clients.
- If required, I arranged travel within the UK & Europe for director`s & estimators.
- I was responsible for booking hotel accommodation and arranged corporate meetings & lunches.
- Attended weekly sales meeting, took minutes, then typed & distributed to necessary people.
- I helped to complete all Health & Safety and Environmental questionnaires & gathered relevant information.
- All other administration duties as required.

## **2007 – 2008 Redrow Homes - Customer Service Administrator**

### **Duties:**

- Provide a high quality service to customers, professionally and importantly within agreed timescales.
- I was the first point of contact on the customer service department. My main objective was to establish the reason for the call and then determine the next course of action to be taken, this could be a simple query that I could talk to the customer over the phone or a more complex problem which would require a visit from one or more of Redrow`s numerous contractors.
- Part of my role was also to manage the office diaries for both customer service managers and customer service technicians.
- I also ensured that general administration was managed on a daily basis so as to ensure that the office ran smoothly and paperwork was kept accurately filed, undertook all the appropriate archiving work, fax, photocopy and other duties as required.

## **2004 – 2007 Utility Partnership LTD - Administrator**

Administrator working on the O2 account, duties included:

- Setting up new filing system, the timely acceptance of quotes, receipt and logging of all O2 purchase orders.
- All other administration duties as required.
- Part of my role also had a health and safety aspect; I was required to track and register completed risk assessments.
- I had also been given the task of the recording and tracking tools and protective clothing used within the engineering department.

## **1997 – 2004 British Gas – Customer Service Executive**

My first position at British Gas was working on the call centre in the Home Movers Department.

- This was an extremely busy department where I received incoming calls from customers who had recently moved home and needed to close their old gas account in order to receive their final bill; this involved taking personal information along with bank details in order to set up accounts at their new homes.
- I was also required to promote other British Gas products; set up payment schemes & deal with any general enquiries.
- I then agreed to move to the administration department at British Gas. This was the time that the Gas & Electricity suppliers had begun to sell both utilities & we were swamped with applications from new customers. This meant processing the new applications & contacting new customers in order to carry out a credit vetting.
