Personal Statement

A highly motivated and enthusiastic Network Engineer with a proven track record of resolving complex networking issues. Adept at implementing and maintaining cutting-edge networking solutions, with a strong commitment to staying updated with the latest technological advancements. Possesses excellent organisational skills, leadership qualities, and extensive technical expertise in network infrastructure, security, and operations.

Currently seeking a challenging engineering position that will leverage existing skills while offering opportunities for further professional development.

Technical Skills

- **Network Infrastructure:** P2P, DSL/ADSL, IPVPN, MPLS, Managed Internet Access, Ether VPNs, 3rd Party Circuits (BT, Vodafone, TalkTalk, Colt, Virgin)
- **Routing & Switching:** RIP, RIPv2, EIGRP, OSPF, BGP, Static Routing, Redistribution
- **Connectivity & Hardware:** Ethernet (10/100/1000/10,000), Fibre Optics (Single Mode, Multimode, SFPs)
- **Network Protocols & Services:** IP Addressing, DHCP, VLSM, DNS, TCP/IP, VLAN, Private VLAN, VTP, STP, Port Channels, GRE Tunnels, NAT (Dynamic & Static), SNMP, HSRP, VRRP, GLBP, Pseudo-wires, ePipe, cPipe, VPLS, VPRN
- **Security & Firewalls:** Cisco ASA 5505/5508/5510/5512, Juniper SRX, Firewall Configuration, IPSec VPN, Remote Access, SSL VPN, DMVPN
- **Enterprise Solutions & Tools:** Cisco (800, 2900, 3600, 3900, ISR4400, ASR1000, ME3400, Nexus Family), Juniper MX204, Palo Alto, Meraki Dashboard
- **Monitoring & Troubleshooting:** IPSA, Remedy, ServiceNow, HPNA, TACACS, Wireshark, NetFlow
- **Operating Systems & Configuration:** Cisco IOS XR, IOS XE, Nokia SR OS, JunOS

Certificate

- Cisco Certified Specialist – Enterprise SD-WAN Implementation
- CompTIA Cloud+
- JNCIS: Service Provider
- NRS1: Network Routing Specialist (Ongoing)
- BEng Computer Networking – University of Greenwich (2011 – 2015)

Current Employment

Lumen Technologies

Lead Engineer

Feb 2023 – Present

- Manage and maintain the network infrastructure for a financial institution's trading platform.
- Oversee the security infrastructure of an insurance institution's Palo Alto security estate.

British Telecom

Project Implementation Engineer || Contract

April 2022 – March 2023

- Implemented PKI Migration Projects
- Managed Public Service Network (PSN) – DMVPN
- Worked on Encryption Overlay Service (EOS)

British Telecom

Data Engineering Specialist || Contract

July 2021 – March 2022

- Led EOS Network Refresh/Upgrade initiatives
- Troubleshoot and maintain DMVPN tunnels

National Road and Safety Commission - Ghana

Network Consultant || Project (Network Refresh)

Dec 2020 – Feb 2021

- Conducted site surveys and assessed project equipment
- Proposed and implemented MPLS solutions.
- Created High-Level Design (HLD) documentation

Port233 Ltd || Holy Family Catholic Church

Network Consulting || Project (Network Optimization)

Aug 2020 – Oct 2020

- Review and assessment of network infrastructure.
- Implemented optimization changes and recommended upgrades.

NATO Communication and Information Agency [SHAPE-Mons]

Jan 2020 – July 2020

Transmission Engineer || Contract

- Provision and maintained layer 2 services over an MPLS network.
- Standardized network configurations across mission-critical systems.
- Designed and implemented low-level services network solutions.

Daisy Communication Group

Date: July 2015 – Dec 2019

Core Network Engineer || Technical Operation Centre

My main responsibilities included and not limited to:

- Monitored and maintained core network platform systems using SNMPc.
- Diagnosed and resolved network, cloud, and UCS-related issues.
- Implemented changes across core and customer-facing networks.
