- RJE administrator

WORK EXPERIENCE (IT Professional):

Master COBOL Programmer – Mainframe Specialist

November 05, 2023 – August 1, 2025 *(Lack of Mainframe work due to Modernization)*

United States Department of Agriculture, Kansas City, MO. - ATTAINX, Inc

USDA Loan Applications have to change from COBOL v4 & earlier to COBOL v6.3 before the end of April.

Initiated programmer tools (EASYTRIEVE) to simplify migrations from and to ENDEVOR; contribute to efficiency of COBOL v6.3 conversion; determine scope of project and the order of tasks needed to complete effort; and other efficiencies to assist in a smooth transition. Assisting in the Tracking & Assignment of which COBOL 4 and earlier Modules to convert, compile & Unit Test for the FPAC / FSA / PLAS using IDMS database portion of the IE6 COBOL Conversion Project.

Master COBOL Programmer – Mainframe Specialist

January 01, 2022 – November 05, 2023

United States Department of Agriculture, Kansas City, MO. - Creative Systems & Consulting

Initiated programmer tools, such as EASYTRIEVE, to simplify migrations from and to ENDEVOR; contribute to efficiency of COBOL v6.3 conversion; determine scope of project and the order of tasks needed to complete effort; and other efficiencies to assist in a smooth transition. Assisting in the Tracking & Assignment of which COBOL 4 and earlier Modules to convert, compile & Unit Test for the FPAC / FSA / PLAS using IDMS database portion of the IE6 COBOL Conversion Project.

Filled in as ORACLE DBA for the modernization project for one of the teams, while they were between resources for their role.

Fundamentally contributed to the implementation of the **Pandemic Assistance Program**, with Gary White, in order to process thousands of applicants utilizing the PLAS nightly Batch Cycle. In receipt of a U.S.D.A. Honor Award of Excellence for my role in the development of the **Pandemic Assistance Program**.

During gaps in Contract employment, operated business full time, otherwise operated in part-time mode. Responsible for all aspects of service offered by this sole proprietorship to home and small business clients to advise on the best choices, practices and mentoring on the systems and the required maintenance for the best solutions to their needs.

Programmer Analyst – DB2 Database Administrator (Mainframe)

May 01, 2008 – May 03, 2015

Internal Data Resources, LLC. - Xerox State Healthcare, LLC

Alpharetta, GA

Consulting Company supplying IT talent for multiple clients. Began as Provider sub-system DB2 / COBOL / EASYTRIEVE+ / JES3/JCL/SYNCSORT– ICETOOL/ CLIST Modifications/ TSO/ISPF Programmer / DB2 DTEK, and have been serving as the DC MEDICAID/MMIS Project DB2 DBA since February of 2010. Duties include SQL review, DB2 table definitions, relationships and enhancements for the Xerox State Healthcare, LLC, and being 24/7/365 On-Call for any and all DB2 related issues. Additionally serve as back-up for Production migration duties,

and supply Technical Support, when needed, for ENDEVOR related issues, and automation of daily reporting to the Xerox client, the District's DHS offices, as well as supplying daily report of ENDEVOR Production migrations. (ADHOC SPUFI reporting, as needed.)

Programmer Analyst (Mainframe)

January 15, 2008- March 28, 2008

Teksystems, INC., Louisville, KY

YUM Brands / KFC Conversion to NETEZZA - Responsible for documentation, Mainframe Staging JCL and documentation, maintenance of Legacy Systems not being converted using EXCELL Flow Charting, CA7, TSO Utilities, ENDEAVOR, TELON, COBOL, DB2, NEXUS (SQL Editor) and XPORT (a quick NEXUS / DB2 download utility).

Programmer Analyst 4

March 29, 2005- June 30, 2007

STATE OF TENNESSEE, Nashville, TN

Department of Human Services, Childcare Services,

Responsibilities included ORACLE Data Base conversions of TNKIDS part of the MEDICAID/MMIS Financial Discoverer Reporting for TNKIDS, TAS (Training Assignment System) and FHACP Systems associated with TNKIDS; as well as Legacy Mainframe to FOXPRO to TNKIDS ORACLE data conversions.

Business Analyst 3

July 01, 2007 – January 14, 2008

Department of Human Services

Responsibilities included Case Legal processes and presentation of recommendations to the MEDICAID/MMIS DHS staff, in-house, clients for enhancements and required maintenance of existing systems to comply with ever-changing governmental and legislative regulatory requirements.

Information Technology Professional

May, 2004 – September, 2005

ZYCRON COMPUTERS, INC., Nashville, TN ,

Responsibilities included the Conversion of Field Payroll Systems (Hospital, Physician and Medical Care Facilities) from DB2 / CICS / COBOL / EASYTRIEVE+ / JES3/JCL /SYNCSORTCLIST Modifications / TSO/ISPF Batch & Real Time QMF and VSAM Legacy Systems to a Lawson Payroll ERP solution. Additional efforts were in conversion of partial HR, GL and HR Analytic data extraction, interpolating and conversion to Lawson and ESSBASE Servers, respectively, for presentation through Lawson Front-end.

Senior Applications Engineer /Team Lead

October 10, 2001 – February 01, 2004

ACS, GOVERNMENT SERVICES, Franklin, TN

Responsibilities included Training DC MEDICAID/MMIS staff in OMNIADD, Security Administration, OWLLIB Technical Support, Technical Support for Mainframe Project Staff, Production Control initiation, standards & maintenance, Documentation Analysis & Technical composition of required DSD & related documents for Participant & Switch Vendor Subsystems, DB2 Structure (initiated standards) using COBOL / EASYTRIEVE+ / JES3 JCL (initiated standers), SYNCSORT, CLIST Modifications , TSO/ISPF, Analysis & maintenance for the conversion of VSAM-based PDCSX2 (PBM), MEDICAID/MMIS Prescription Benefit Management to DB2 and Power Builder user interface, instead of CICS MF interface for start-up of Cool Springs facility.

Senior Applications Engineer

November 12, 1998 – October 09, 2001

HCA THE HEALTHCARE COMPANY, Nashville, TN,

Responsibilities included Field Payroll Maintenance & Development (hands on), as well as temporary oversight for the section. The Field Payroll System supported approximately 497 facilities, with over 500,000 employees (all of HCA, TRIAD & LIFEPOINT Facilities).

Further responsibilities were for the security of the Mainframe DB2 / CICS / COBOL / JES3/JCL / SYNC SORT, CLIST Modifications / TSO/ISPF and Batch Systems that required close working relationships with the Business Analysts, Facilities Accounting and Leadership personnel & Banking Partners.

Systems Analyst

May 17, 1998 – November 11, 1998

Fruit of the Loom, Nashville, TN,

Duties included maintenance of European Invoicing system using COBOL / DB2 / CICS / JES3/JCL / SYNC SORT, CLIST Modifications / TSO/ISPF / EDI ANSI XII documents. Assisting with conversion of Mainframe COBOL, DB2, CICS and EDI ANSI XII documents to ORACLE based system.

Reason for changing positions: Fruit of the Loom closed their Nashville office, and I was not willing to relocate to Bowling Green, KY at that time.

Sr. Systems Analyst

August 05, 1995 – May 16, 1998

GENESCO, Nashville, TN,

Duties included maintaining EDI COBOL translators and creating additional EDI COBOL translators for new EDI documents / JES3/JCL / SYNC SORT/ CLIST Modifications/ TSO/ISPF; understanding and maintaining AMIGO shoe manufacturing system; supporting implementation, creating update method using FOXPRO, and maintenance of TELEMAGIC for 3 GENESCO shoe divisions; and maintenance and creation of CICS IMS programs using CICS and DMS mapping. *Reason for changing positions:* My first wife retired, and I needed more money to make our bills.

Project Lead / Technical Consultant

January 01, 1992 – August 04, 1995

FIRST HEALTH SERVICES, Nashville, TN,

Responsibilities included all supporting Systems for conversion and support of MEDICAID/MMIS to TENNCARE Care, from initiation in January 1994, until First Health Services lost the contract to EDS. Major accomplishments were initiating Programming Standards to identify any problem areas and widening the knowledge base available in order to clarify any disparities in the initiated concept to the final design; and determining the cause of a data integrity issue, identifying the erroneous data, and heading my team to correct all said data errors in order for the Monthly Production Claims Processing to be run. Mainframe tools were COBOL / EASYTRIEVE+ / JES3/JCL / SYNC SORT, CLIST Modifications / TSO/ISPF with VSAM and Sequential file systems. *Reason for changing positions:* First Health Services lost the TENNCARE account to EDS.

Systems Engineer

August 05, 1989 – December 31, 1991

COMPUTER TASK GROUP & EAGLE SYSTEMS, Nashville, TN,

Assignments included 13 months of working for G.E.I.S., located in Brentwood, TN, using COBOL / JES3/JCL / SYNC SORT, CLIST Modifications / TSO/ISPF / FORTRAN 77 / MARK IV (In-house programming language and database system) to maintain and create new EDI ANSI XII documents used globally in every industry and governmental systems using databases TOTAL and IDMS network / DB2 relational / IMS heirachial databases as well as VSAM files.

Job Search

October 31, 1988 to August 04, 1989

Programming Technician

May 01, 1982 – October 30, 1988
