Skills

Languages/Frameworks: JavaScript, Node.js, React, Vite, Express.js, Next.js, C++ , C, HTML, CSS

Technologies: MongoDB, Firebase, Appwrite, Postman, Cloudinary, Webpack, Netlify, Figma, Canva, Git, GitHub

Soft Skills: Strategic planning, Self-Learning, Time Management, Leadership, Communication, Problem-Solving

Fundamentals: OOPs, DBMS, SDLC, Computer Networks, Operating System, Compiler Design

Education

Kamla Nehru Institute of Technology, Sultanpur – B.Tech in Computer Science

Nov 2022 – Present

- GPA: 8.39 / 10.0

Freelancing

Graphic Designs, Makeup Artist Client

Sep 2025 – Oct 2025

- Designed Diwali-themed promotional posters highlighting a makeup artist's mehendi and makeup work to support seasonal marketing.
- Developed visually appealing graphics to boost social media engagement and increase potential client bookings.

Projects

Valley SaaS

[Link](#)

- Techstack: Clerk, TypeScript, Cloudinary, Prisma, NeonDB, Next.js, Node, Git&GitHub
- Built a scalable video-upload backend using Next.js API routes and Node runtime that streams files to Cloudinary , handles chunked uploads and validation, and persists metadata with Prisma
- Enables easy video uploads powered by Cloudinary to store, secure storage with a robust backend, and optimized streaming performance for diverse devices.

PrepWise

[Link](#)

- Techstack: Next.js, Firebase, Shadcn, Vapi, Gemini, Vercel, Git&GitHub
- Next.js web app for AI-powered interview generation with voice interaction via Vapi SDK and Firebase authentication.
- Still in development and not fully ready yet.

Authentication System

[Link](#)

- Techstack: Node.js, MongoDB, Atlas, Mailtrap, Netlify, Git&GitHub
- Created a secure system for user authentication with email verification, profile management, and multi-role access control.
- Enhances security and user experience with verified logins, personalized profiles, and robust error handling for better reliability.

Entrepreneurial Activities

Y Combinator Summer '25 Application - Nivox

- Developed and pitched Nivox, a **B2B procurement platform** addressing trust and delivery challenges for both parties.

Thiel Fellowship Application - MindPulse AI

- Applied in **November 2025** with **MindPulse AI**, a mental health technology concept focused on scalable digital support.

The Foundry Application

- Applied in **January 2026** to get mentorship, structured development, and startup ecosystem.

Positions of Responsibility

Finance and Documentation Head - Hobby and Robotics Club, KNIT Sultanpur

Oct 2023 – Present

- Handled finances, supported robotics projects and tech fest visits.

Teacher - Koshish Education And Welfare NGO

Feb 2023 – Present
