Experience

Signify Health, Polk County, FL

March 2024 - Present

NP Home Health Risk Assessment, Independent contractor, Remote

Provided in-home clinical assessments to evaluate patient health status, identify care gaps, and support preventative and active medical management. Conducted comprehensive evaluations including medical history review, physical exams, medication reconciliation, and point-of-care testing. Applied clinical judgment to diagnose conditions, document findings, and collaborate with primary care providers to address treatment needs. Delivered patient education to promote disease management, medication compliance, and overall wellness, while intervening in urgent or emergent situations to ensure patient safety.

- Improved care plan accuracy by performing thorough in-home assessments and communicating findings to primary care providers to address identified gaps in care.
- Enhanced early intervention outcomes by recognizing urgent conditions during visits and initiating appropriate escalations.
- Increased patient adherence to treatment protocols through targeted education on disease processes, medication management, and lifestyle modifications.
- Strengthened quality of care by performing evidence-based screenings and ensuring timely follow-up on abnormal results.

Optum, Polk County, FL

May 2024 – May 2025

ARNP Home Base Medical Care

Delivered comprehensive post-acute care and ongoing chronic disease management for home-based patients in a collaborative care model with a focus on reducing hospital admissions and improving patient outcomes. Developed and updated individualized care plans in collaboration with patients, legal representatives, and physicians. Provided diagnostics, interventions, and patient education to promote wellness, ensure continuity of care, and maintain compliance with clinical standards. Supported quality improvement initiatives, participated in multidisciplinary meetings, and maintained expertise through continuing education.

- Reduced preventable acute admissions by prescribing targeted diagnostics and interventions aligned with patient care plans.
- Improved patient engagement and treatment adherence by delivering tailored education on disease management and wellness strategies, both in person and at home, and via Telehealth. Managed a panel of 200-350 patients.
- Supported organizational quality goals by implementing HEDIS measure campaigns and other initiatives that enhanced care delivery standards.
- Strengthened care continuity by collaborating with hospital, emergency, and post-acute teams during patient transfers.
- Enhanced team knowledge and care consistency by providing counsel, training, and best-practice sharing to clinical staff.

Harmony Cares | Formerly known as Visiting Physicians Association

June 2019 - January 2024

ARNP Health Risk Assessment Clinician, Remote

Delivered comprehensive in-home medical assessments to evaluate patient health status, identify diagnoses, and guide care management decisions both in-person and via Telehealth. Responsibilities included reviewing medical history, conducting physical exams, performing point-of-care testing, and reconciling medications. Applied clinical expertise to recognize urgent conditions, formulate diagnoses, and communicate findings to primary care providers. Educated patients on disease processes, medication adherence, and preventive health measures to improve outcomes and promote wellness.

- Improved care coordination by providing timely, detailed assessments to primary care providers, helping close critical gaps in patient care.
- Enhanced early detection and intervention by identifying urgent and emergent conditions during visits and initiating appropriate escalations.
- Increased patient compliance and health literacy through targeted education on chronic disease management, medication adherence, and lifestyle adjustments.
- Supported quality improvement initiatives by conducting evidence-based screenings and ensuring follow-up on abnormal results.

Emcara | Formerly known as PopHealthcare, Polk County, FL

January 2020 - January 2024

FNP Caresight Longitudinal & Home Based Medical Care PCP

Delivered comprehensive in-home medical care in both Primary Care Provider capacity and as a secondary provider in a collaborative care program. Managed a patient panel of over 240 individuals, addressing chronic illnesses, post-acute recovery needs, value-based care, and preventive care. Conducted thorough health assessments, reviewed medical histories, ordered and interpreted diagnostics, monitored lab, medication management, and established differential diagnoses. Provided patient and family education to encourage informed decision-making, while ensuring all care was documented in compliance with state, federal, and organizational requirements.

- Successfully managed a high-volume caseload, completing 4–6 patient encounters daily while maintaining quality standards, meeting patients in their home settings and/or via Telehealth.
- Improved patient treatment compliance by an average of 10% through targeted education, counseling, and collaborative care planning.
- Enhanced diagnostic accuracy and treatment planning by autonomously performing advanced procedures, including urinalysis and HgbA1C testing.
- Strengthened continuity of care by consistently updating EMR documentation to meet regulatory standards and support coordinated care.
