

PRADEEP PASHAPUR

Address: Colchester, Essex, UK CO4 3LB | **E-mail:** paschapur.pradeep@gmail.com | **Phone:** 07352 670731

LinkedIn: <https://www.linkedin.com/in/pradeep-paschapur-2b76b620a/>

PROFESSIONAL SUMMARY

- Certified Network Engineer with 5 years' experience delivering **SD-WAN, network security, and cloud solutions** for 20+ global clients.
- **Achieved >99.9% uptime**, optimizing 30+ NGFW firewalls and VPNs across critical environments.
- Expert in **Cisco Viptela, Palo Alto Prisma, Fortinet**, and cloud platforms like **Meraki**.
- **Led a 9-member team**, mentoring engineers and accelerating incident response.
- **ISC2 CC, CompTIA Security+, CCNA, and Fortinet certified**.

CORE SKILLS & TECHNOLOGIES

- **Network & SD-WAN:** Cisco, Fortinet, Palo Alto, IPsec, BGP, OSPF, NAT, VLAN, TCP/IP, DNS, DHCP
- **Security:** CompTIA Security+, NGFW, IDS, IPS, TLS, IAM, VPN, SSL, CTI, GRC, SASE, SOAR
- **Tools:** Cisco IOS, Meraki, Viptela vManage, Cisco Catalyst & Nexus Devices, Fortinet FortiGate, Palo Alto Prisma, PAN-OS NGFW, Wireshark, Putty, ServiceNow, ConnectWise, SolarWinds, GNS3, Packet Tracer, OpsRamp, Logic-Monitor.

PROFESSIONAL EXPERIENCE

SD-WAN Network Engineer

World Wide Technology, Remote - January 2025 to September 2025

- Designed and deployed 15+ SD-WAN solutions across Cisco Viptela, Meraki, Fortinet, and Palo Alto Prisma platforms, improving network efficiency by 30%
- Configured and managed 100+ Palo Alto firewall rulesets, reducing unauthorized access incidents by 40%. And implement security policies, source NAT, destination policies, VLANs, and High Availability (HA) setups
- Implemented and maintained 25+ VPN tunnels, ensuring secure communication for remote teams with zero data breaches
- Automated backup and restore policies using Panorama, reducing policy recovery time by 80%
- Supported cloud integration with Meraki and Prisma, enhancing cloud uptime SLA from 95% to 99.5%.

Network Engineer L2

New Era Technology Company, Bangalore - May 2023 to January 2025

- Resolved 350+ tickets/month, maintaining >98% SLA compliance and earning top 5 performance ranking
- Configured Cisco SD-WAN and Palo Alto Prisma SD-WAN solutions, reducing branch office outages by 20%
- Delivered L2 network support to 15+ global enterprise clients, ensuring >95% Phone Account time
- Decreased hardware dispatch costs by 10–15% through optimized vendor coordination
- Conducted root cause analysis and preventive actions that lowered recurring incidents by 25%.

Network Engineer

Movate, Bangalore - October 2021 to April 2023

- Spearheaded a team of 9 technicians, achieving <5% SLA breach rate for US-based enterprise clients
- Oversaw network equipment deployment across 150+ sites including routers, switches, ISPs, and VoIP systems
- Provided hands-on training to 15+ new hires, reducing onboarding time by 30%.

Junior Analyst

Northwest Executive Education, New Delhi - December 2020 to October 2021

- Curated 15+ executive education programs, collaborating with content and marketing teams to increase enrollment by 20%
- Conducted market research on 500+ institutions, contributing to a detailed strategic report adopted by leadership
- Delivered weekly presentations on competitor trends and pricing, enabling data-backed decisions.

Entrepreneur

Carbine Systems, Belgaum - February 2020 to December 2020

- Designed and manufactured 15 industrial 3D printers, generating ₹5 Lakhs revenue from pilot clients
- Designed and manufactured AGV (Automated Guided Vehicles) kinematics and motion control systems
- Built custom ESCs for robotics and developed fail-safe RC systems, improving machine uptime by 30%
- Reduced production costs by 20% through local sourcing and design optimization.

EDUCATION

Master of Science in Cyber Security (RQF7)

University of Essex, United Kingdom – September 2025 to Current

Bachelor of Engineering in Electrical & Electronics Engineering

Visvesvaraya Technological University, India - August 2015 to July 2019
