

RACHAEL OYE-AKINOLA

IT Programme Management

+447580027822 - rae.oyea@gmail.com - [LinkedIn](#)

CAREER SUMMARY

Solutions-focused IT programme manager with extensive experience delivering technology, cybersecurity, SaaS and infrastructure projects, and integration programmes in regulated environments. Brings strong capability in governance, risk and compliance, with hands-on expertise across NIST, SOC2, ISO27001 and GDPR frameworks. Skilled in leading enterprise technology initiatives, managing cross-functional delivery, integrating systems across mergers and acquisitions, and coordinating complex transformations spanning cloud, data, security, digital platforms, and core infrastructure.

Recognised for clear communication, structured stakeholder engagement and the ability to translate technical detail for diverse audiences. Builds collaborative, high-performing teams, strengthens delivery governance and promotes efficient ways of working. Brings a calm, solution-oriented approach, ensuring alignment, visibility and timely decision-making while removing delivery barriers and enabling secure, resilient business operations.

PROFESSIONAL EXPERIENCE

Landsec, United Kingdom

2023-Present

Cyber Security Project Manager

Lead enterprise-wide technology, security and M&A integration programmes while ensuring compliance with NIST, SOC2, GDPR and UK regulatory frameworks. Mobilise cross-functional teams, manage budgets and strengthen operational processes across HR, IT and security functions. Deliver enhancements to assets, websites, privacy controls and lifecycle processes across the organisation.

- Delivered the 2024 NIST audit and led initiatives across supply chain risk management and security continuous monitoring.
- Directed IT integration for the Media City acquisition, including secure onboarding, system migrations and data transition into Microsoft Dynamics 365.
- Coordinated cookie and privacy compliance activities across 40+ websites in partnership with third-party consultants.
- Delivered the migration of 34 websites to Umbraco CMS, coordinating developers, UX teams and external suppliers.

BCB Group, United Kingdom

2022-2023

Senior Delivery Lead

Managed payment, compliance and security programmes within a regulated crypto-financial services environment. Partnered with C-level stakeholders to prioritise portfolios, strengthen security controls and support audit readiness across global teams.

- Delivered compliance and payment programmes, including multi-bank partner onboarding to expand USD payment capability.
- Supported ISO27001 and SOX readiness by improving documentation and aligning policies with audit requirements.

RACHAEL OYE-AKINOLA

- Delivered the Confirmation of Payee security initiative, managing API integrations and vendor dependencies.
- Introduced financial reporting dashboards with integrated controls to enhance operational transparency.

Fujitsu, United Kingdom

2021-2022

Project Manager

Managed secure delivery across the SDLC, working with architects to ensure compliance. Oversaw financial forecasts, milestone tracking, and delivery reports for key enterprise programs.

- Directed the Request-to-Quote process with embedded security and architecture oversight.
- Managed budgets, KPIs and milestone tracking to improve delivery predictability.
- Improved database reliability through targeted process optimisation.

The Workshop, United Kingdom & Spain

2018-2021

Senior Project Manager

Delivered large-scale transformation, cloud and cybersecurity programmes across EMEA and APAC, enhancing governance, platform resilience and architectural consistency across multiple technology domains. Partnered with senior leadership to strengthen delivery structures and ensure secure, well-governed implementation of enterprise systems.

- Delivered a real-time data warehouse migration to replace Oracle ERP, embedding stronger data governance and automation.
- Directed the development of a blockchain-based cryptocurrency payment scoring system to enhance security and validation.
- Led the enterprise migration to Google Cloud Platform, coordinating DevOps, Security, Database and Platform teams.
- Oversaw network transformation, including MPLS-to-iWAN migration and data centre transitions across 60+ international sites.
- Led the implementation of a finance reconciliation platform supporting daily and monthly settlements with integrated dashboards.

Ayima, United Kingdom

2016-2018

Project Manager

Managed digital delivery programmes which improve client experience, strengthened data integrity and ensured high-quality solution deployment.

- Delivered ecommerce programmes ensuring accuracy and compliance.
- Led initiatives that improved client experience and retention.
- Delivered e-commerce system integration aligned with ERP processes.
- Supported optimisation of digital operations across client portfolios.

Prior experience

Project Manager, SHS (2014-2016), and Marketing Coordinator, Bazaarvoice (2012-2013)
