

RAVI PATOLIYA

London, United Kingdom, CR0 1UL | 074-353-87774 | ravipatoliya008@gmail.com

PROFESSIONAL SUMMARY

Experienced Network Engineer with expertise in telecommunications infrastructure management and network optimization. Skilled in 3G/4G/5G technologies, routing and switching, and implementation of transmission networks. Proven track record of improving network availability while meeting SLAs and leading technical teams to enhance operational efficiency.

SKILLS

- **Networking:** CCNP, CCNA, OSI Model, Routing & Switching, Configuration, Troubleshooting
- **Protocols:** OSPF, BGP, EIGRP, STP, PVSTP, RSTP, MSTP, HSRP, VRRP
- **Infrastructure:** LAN, WAN, VLAN, EtherChannel, Network Redundancy, 3G/4G/5G
- **Management:** Network Optimization, Performance Monitoring, Team Leadership, Resource Allocation
- **Languages:** English, Hindi, Gujarati (All Excellent)

PROFESSIONAL EXPERIENCE

OPERATION AND NETWORK ENGINEER

Vodafone Idea Limited | Vapi, Gujarat | November 2019 - June 2021

- Maintained network availability across assigned geography while ensuring compliance with SLAs
- Evaluated outages of access network BSC/TXN nodes daily and developed corrective action plans
- Led a team of 19 technical employees, supervising performance and implementing safety protocols
- Implemented advanced routing protocols (OSPF, BGP) for efficient network traffic management
- Configured redundancy protocols (HSRP, VRRP) to ensure high availability of critical services

BSC NETWORK ENGINEER

Ericsson India Pvt Ltd | Nadiad, Gujarat | February 2017 - November 2019

- Led ring up-gradation projects from 1G to 10G for access and core networks
- Maintained technical devices including NEC and Huawei servers for optimal system performance
- Coordinated with internal & external teams on change request execution for network migration
- Designed and implemented VLAN configurations and STP protocols to optimize network segmentation

- Monitored transmission networks and implemented solutions for radio fault resolution

BSC NETWORK ENGINEER

Nokia Solutions & Networks | Nadiad, Gujarat | September 2015 - September 2016

- Maintained radio network availability within defined SLAs across assigned geographic area
- Performed daily analysis of transmission node reports and implemented firmware patch updates
- Troubleshoot LAN/WAN connectivity issues using OSI model approach to isolate network failures
- Monitored transmission access network reports, alarms, and NMS visibility

EDUCATION

MASTER OF SCIENCE: ELECTRICAL AND ELECTRONIC ENGINEERING

London South Bank University | London | September 2021 - September 2022

- **Final Year Project:** Development of Self-Harvesting Energy Receiver for Visible Light Communication
 - Designed an energy-efficient receiver system harvesting ambient light energy for VLC functions
 - Created sustainable optical wireless technology for data transmission with minimal power requirements
 - Developed prototype demonstrating applications for IoT devices and smart environments

BACHELOR OF SCIENCE: ELECTRICAL, ELECTRONICS AND COMMUNICATIONS ENGINEERING

Gujarat Technological University | Gujarat | July 2012 - June 2015

CERTIFICATIONS

- **Cisco Certified Network Professional (CCNP) Enterprise (Encore)** | Current
